

# The Androids, Brand New Life

made up my mind  
You know when you're sick of tryin'  
You've gotta be on your way  
I was always denying  
The things that I felt inside  
I really don't wanna stay  
This is all my brand new life

You wake up one day

And realise you're wastin' time  
You know there's a better way  
I know if you try  
You'll get it to go your way  
Jump and you just might fly  
This is all my brand new life

You never really wanted it so bad

So take the time to do it right I know that  
Its really hard but you will be so glad  
So take the time to do it right before its over  
You wake up one day

And realize you're wastin' time  
You know there's a better way  
This is all my brand new life
