

# The Androids, Here She Comes

Do do do do do do do  
Do do do do do do do do  
I've got her stuck in my brain like a tattoo memory

And I've just gotta say  
That she's so hot I feel warm on a winters day  
And the snow just melts away  
Come out and play I can see that you move so great  
We'll all just watch you dancin'  
It hurts my brain just to think that you look like that  
And not a bit of you is plastic  
Here she comes

She sees right through me  
Her hair is long  
She shakes that booty  
Here she comes  
She's takin' over  
My mind is blown  
I'm a Casanova clown  
Do do do do do do do

Do do do do do do do  
When she walks by all I hear is a lot of static

She blows me away  
I've got her stuck in my brain like a tattoo memory  
And I've just gotta say  
Here she comes

She sees right through me  
Her hair is long  
She shakes that booty  
Here she comes  
She's takin' over  
My mind is blown  
I'm a Casanova clown  
Do do do do do do do

Do do do do do do do  
I wonder if she knows what she puts me through

I wonder if she knows what she makes me do  
Here she comes

She sees right through me  
Her hair is long  
She shakes that booty  
Here she comes  
She's takin' over  
My mind is blown  
I'm a Casanova  
Here she comes  
She sees right through me  
Her hair is long  
She shakes that booty  
Here she comes  
She's takin' over  
My mind is blown  
I'm a Casanova clown  
Do do do do do do do

Do do do do do do do
