

# The Androids, Inside Out

I can't hide the way I'm feeling deep down inside  
Soothe my mind need to know that every-things alright  
I won't lie to keep things moving if it's feeling wrong  
But you know me without your hand I couldn't be that strong

I feel like I'm inside out  
When you look over at me  
I feel like I'm inside out  
But you don't turn away

You think you know me more than I even know myself  
You see right through me just like a window now I need you here

I feel like I'm inside out  
When you look over at me  
I feel like I'm inside out  
But you don't turn away

I feel like I'm inside out  
When you look over at me  
I feel like I'm inside out  
But you don't turn away

I feel like I'm inside out  
When you look over at me  
I feel like I'm inside out  
But you don't turn away
