

# The Androids, She's An Alien

She finds it hard to be the positive one  
Under her rock she feels quite safe  
Hangin' out with her can sometimes be fun  
But other times I'm in a state of shock  
We make up but not much later I'm stung

The crazy stuff that she will do  
The second chances always bring me undone  
With all the shit she puts me through  
Now, I'm afraid she's an alien

You never know just what she's gonna do  
I'm afraid she's an alien  
But she sticks to me like glue  
I wonder if my friends are thinking I'm dumb

Whenever she yells her abuse  
She has me wrapped around her littlest one  
In bed there's nothin' she won't do  
Now, I'm afraid she's an alien

You never know just what she's gonna do  
I'm afraid she's an alien  
But she sticks to me like glue  
Now, I'm afraid she's an alien

You never know just what she's gonna do  
I'm afraid she's an alien  
But she sticks to me like glue  
You never know just what she's gonna do  
But she sticks to me like glue  
You never know just what she's gonna do  
But she sticks to me like glue  
I'm afraid that she's an alien

Now I know that she's an alien
