

The Androids, Whole Lotta Love

Don't take for granted what you got in you're life
Who do you turn to when nothin' feels right
Some one who holds you and makes you believe
It's all right
It's all right
People tellin' you whats right and what's wrong
You've been hearin' it for way to long
Dont spend youre whole life thinkin' you don't belong
It's all right
We gotta whole lotta love
We gotta whole lotta love
Yeah you should already know
Why dont you let it show

Now we should learn to love each other some more
Instead of sendin' all our kids of to war
It's time to put in to what's gone before
It's not right
It ain't right
Why don't we always try to get along
Give it a chance and we can do no wrong
You won't be sorry if you hold on strong
It's all right

We gotta whole lotta love
We gotta whole lotta love
Yeah you should already know
Why don't you let it show
We gotta whole lotta love
We gotta whole lotta love
Yeah you should already know
Why don't you let it show

We gotta whole lotta love
We gotta whole lotta love
We gotta whole lotta love
Why don't you let it show
We gotta whole lotta love
We gotta whole lotta love
Yeah you should already know
Why don't you let it show
Why don't you let it show
Why don't you let it show
Why don't you let it show
Let it show
We gotta whole lotta love
We gotta whole lotta love
Why don't you let it show
We gotta whole lotta love
