

The Animals, I Don't Care No More

When we first met, I know what it was
A stranger told me not to, trust your love
I was so carried away, I payed no mind
But I thank God, I saw the light in time
Little girl now, I don't care no more
I don't care what you do, I don't care no more

You had your way from time the time
Women, you spoke your piece, now I'm going to speak mine
The words you would send, they were not true
I picked up a loosing battle like all fouts do
But now, I don't care no more
I don't care what you do, I don't care no more

I finally found out just what it was
The women wanted convenience, but I want love
Ain't but one drink that I did wrong
Take the bottle of life and not my own
But now, I don't care no more
I don't care what you do, I don't care no more
