

The Animals, I'm Lookin' Up

I´m looking up, x5
But when I look at you I´m looking down.
I´m looking up
at a world I left, I´m looking down.
I´m looking up
at the sky straight ahead,
there´s the moon, the sun´s right behind you;

If you stare it can blind you.
And when you see them both together,
chances are I´m gonna find you looking up.
