

The Animators, How Do I Get Over You

How do I get over you?
How do I get over you?

How do I get out
From under
All the things
That I misunderstood
About you
And what I didn't do?

How do I get over you?
How do I get over you?

Every time I tell myself -
I'm doing fine -
Something else reminds me of you.
So what do I do
When I don't believe the lie,
That you don't love me?

Why would that be true?
How do I get over you?

How did you get over me?
How did you get over me?

How did you find a replacement
To fit exactly in the space
Where I used to be?
Was it so easy?

How did you get over me?
How did you get over me?

Tell me that you found a method,
Bullet proof and tried and tested,
Then teach it to me.

Cause I don't believe the lie,
That all I need is time
To heal this wound.
How do I get over you?

Boys and girls and their broken hearts -
They know mornings are the hardest part.
But please don't worry
If she never comes,
The city's gonna find you another one.

Boys and girls and their broken hearts-
They know mornings are the hardest part.
But please don't worry
If she never comes.
How do I get over you?

How do I get over you?
How do I get over you?
How do I get over you?
How do I get over you?
