

The Apex Theory, Fasten

too much energy
can bring you life
a tongue bite
just to reach into your eye
it's getting late
you said enough
it's not enough to move this foward

ride
escape
why won't you fasten and lean on me

you look strong
come bring me life
a tongue bite
just to reach into your eye
it's getting late
you said enough
it's not enough to move this foward

ride
escape
why don't you fasten and lean on me

now breathe in
and slide me in
wash right over everything
breathe in that story's end to start off asleep
don't worry
