

The Apples In Stereo, That's Something I Do

Your friends hate my guts
they think that you're nuts
for hanging out with me yeah
'cause I don't have a pedigree

They think that I'm mean
just because I make a scene
it's their society yeah
that makes me wanna scream

You know, that's something I do once in a while
you know, that's something I do to make you smile

Your friends think it's lame
that you don't play the game
they're gonna look back one day
and see that you put them to shame

They think it's uncool
that we dropped out of school
we're gonna go back someday
for now we wanna play the fool

They think they're better than that
they think they're better than that
they think they're better than that, girl
