

# The Army Of Freshmen, Light In The Sky

I wake up, I get dressed and I comb my hair  
brush my teeth, tie my shoes then I go downstairs  
mom's at work, dad's a jerk, how complacent  
I mean they don't even know what goes on in the basement  
I'm ignored, I don't care, I AM WHO I AM  
genius never went hand and hand with friends

there's no one up there to ever let me down

far away, far away on my spaceship  
I am the light in the sky and I'm wasted  
far away, far away on my spaceship  
I am the light in the sky and I'm wasted

walk the halls in a daze, I'm in my own world  
all these cliques make me sick and then these stupid  
friends I don't have are the ones I won't miss  
while they go and get drunk, I'll just work on my ship

there's no one up there to ever let me down

far away, far away on my spaceship  
I am the light in the sky and I'm wasted  
far away, far away on my spaceship  
I am the light in the sky and I'm wasted

burn my yearbook outside Mars  
nobody needs it, I just don't need it  
they can go to prom, they can buy new cars  
nobody needs it, I just don't need it  
everybody says express yourself  
do they really want you to express yourself  
last time I expressed myself, I ended up alone

far away, far away on my spaceship  
I am the light in the sky and I'm wasted  
far away, far away on my spaceship  
I am the light in the sky and I'm wasted  
far away, far away on my spaceship  
I am the light in the sky and I'm wasted  
far away, far away on my spaceship  
I am the light in the sky and I'm wasted
