

The Army Of Freshmen, On The Radio

The Beat, I'm beat, of all the crap
they play today on the radio
and I wish that Kiss would dismiss it's play list
I'll program the station and send a dedication to you

I heard that song again, it's on the radio
and I didn't even get it's name
it's just my favorite song, it's everywhere I go
and I didn't even get it's name

KROQ says who, not me, not you
the measure of good taste is for the precious few
if I could seize the BREEZE and just freeze the top cheese
I'd program the station and send a dedication to you

I heard that song again, it's on the radio
and I didn't even get it's name
it's just my favorite song, it's everywhere I go
and I didn't even get it's name

I had a dream I met Alan Freed
and he said I'm sorry son I just can't believe
what they did to the rock
and they did it to the roll
they broke it's heart and then they sold it's soul

I heard that song again, it's on the radio
and I didn't even get it's name
it's just my favorite song, it's everywhere I go
and I heard it on the radio
on the radio, on the radio
on the radio, on the radio
on the radio, on the radio
