

The Audition, Make It Rain

Go around and tell all the neighbors, go around and tell everyone
Theres a storm thats coming for her, this time the rain will make her fall in love
This girls so condescending mysterious but beautiful
So go around and tell all the neighbors I'm gonna grab her heart and won't let go
I've never wanted you so much as i do right now
I can't believe this is happening to me
Hey make it rain
Flood the if only for today
Hey make it rain
I need you I want you oh
I just can't help it
Baby all we got tonight
Hey make it rain
Yeah
Her favorite place to dance is outside
Especially when the stars are bright
So thats exactly where I'm headed
She's beautiful under night skies
I've been waiting for this weather
Come rain, come shine, shes mine
Go around and tell all the neighbors
The storm is coming better get inside
I've never wanted you so much as I do right now
I can't believe this is happening to me
Hey make it rain
Flood the if only for today
Hey make it rain
I need you I want you oh
I just can't help it
Baby all we got tonight
Hey make it rain
Yeah
My eyes will be locked on you
I'm moving in for the kill so sit still
I want your eyes locked on me
You will be loving me till the morning
Hey make it rain
Flood the if only for today
Hey make it rain
I need you I want you oh
I just can't help it
Baby all we got tonight
