

The Audition, Warm Me Up

All I want is to be with you
All I want is to be with you
Show your cards, show me what you got
Well break these poker faces, like it or not
Everyones in my head
But I want you in my bed
I never wanna go a day without you
I could never go a day
Come closer to me baby
Ive got everything you need
To feed your hunger pains for tonight
Warm me up beneath the sheets babe
I've heard all about how you can save,
I dont wanna go a day with out you
Warm me up beneath the sheets babe
I've heard all about how you can save,
I dont wanna go a day without you.
Innocence meet jealousy.
Isnt she stunning?
Shell make you smile so hard inside
Make you wish you could bring back those nights
Take a walk with me through my head
Ill show you where I rest
All those nights when Im without you
Draw a new breath; I swear Ill show you
Come closer to me baby
Ive got everything you need
To feed your hunger pangs for tonight
Warm me up beneath the sheets babe
I've heard all about how you can save,
I dont wanna go a day with out you
Warm me up beneath the sheets babe
I've heard all about how you can save,
I dont wanna go a day without you
Come closer to me baby
Ive got everything you need
To feed your hunger pangs for tonight
This can all be a reality
If you just say youll stay with me
Ill make sure everything is done right
[Chorus]
