The Audition, Warm Me Up

All I want is to be with you All I want is to be with you Show your cards, show me what you got Well break these poker faces, like it or not Everyones in my head But I want you in my bed I never wanna go a day without you I could never go a day Come closer to me baby Ive got everything you need To feed your hunger pains for tonight Warm me up beneath the sheets babe I've heard all about how you can save, I dont wanna go a day with out you Warm me up beneath the sheets babe I've heard all about how you can save, I dont wanna go a day without you. Innocence meet jealousy. Isnt she stunning? Shell make you smile so hard inside Make you wish you could bring back those nights Take a walk with me through my head Ill show you where I rest All those nights when Im without you Draw a new breath; I swear III show you Come closer to me baby Ive got everything you need To feed your hunger pangs for tonight Warm me up beneath the sheets babe I've heard all about how you can save, I dont wanna go a day with out you Warm me up beneath the sheets babe I've heard all about how you can save, I dont wanna go a day without you Come closer to me baby Ive got everything you need To feed your hunger pangs for tonight This can all be a reality If you just say youll stay with me Ill make sure everything is done right [Chorus]
