

# The Audition, Your Already Gone

Do-  
You like the way it feels  
When nobody will reply-  
to your questions

Do-  
You like the way it feels  
Whenever you ignore me  
Makes me wild, makes me crazy

I-  
Don't like the things you do  
Don't like what you become  
Don't like what you do to me  
You're already gone

Feels so far away  
Left me on my own  
Even though you're next to me  
You're already gone

Feels so far away  
Left me on my own  
Even though you're next to me  
You're already gone

You-  
You think you know it all  
You think you hold the key to life  
And it's questions

But you-  
You've got a lot to learn  
Stop thinking of yourself  
You're making me lose my head  
You're already gone

Feels so far away  
Left me on my own  
Even though you're next to me  
You're already gone

Feels so far away  
Left me on my own  
Even though you're next to me  
You're already gone

It ain't a problem  
It's my job son  
Sweep the streets clean

Mix it up keep it mean

Best players in the frame up in the game  
Think it's gonna change but it's still the same uh-

Still my pop caps the rocks-  
Holds the pipsqueaks in smoky rocks  
(You're already gone)  
There's always time to fall on their face what-  
Only someones will erase- yeah

You might think that you can hunt me down

Steal my jewels uh-  
Wear my frown

But in the end yo-  
Find the funk  
Smoked out placed down in my trunk

If you'd all move to my plan  
Things will work out fine-  
Turn out grand

If everything works to my design  
We all gonna be down and it's still all mine

I-  
Can't take you anymore  
Can't take the way you treated me  
You make me crawl  
You're already gone

Feels so far away  
Left me all alone  
Even though you're next to me  
You're already gone

Feels so far away  
Left me on my own  
Even though you're next to me

You're already-  
You're already-  
You're already gone

You're already-  
You're already-  
You're already gone

You're already gone
