## The Audition, Your Already Gone

Do-You like the way it feels When nobody will replyto your questions

Do-You like the way it feels Whenever you ignore me Makes me wild, makes me crazy

Don't like the things you do Don't like what you become Don't like what you do to me You're already gone

Feels so far away Left me on my own Even though you're next to me You're already gone

Feels so far away Left me on my own Even though you're next to me You're already gone

You-You think you know it all You think you hold the key to life And it's questions

But you-You've got a lot to learn Stop thinking of yourself You're making me lose my head You're already gone

Feels so far away Left me on my own Even though you're next to me You're already gone

Feels so far away Left me on my own Even though you're next to me You're already gone

It ain't a problem It's my job son Sweep the streets clean

Mix it up keep it mean

Best players in the frame up in the game Think it's gonna change but it's still the same uh-

Still my pop caps the rocks-Holds the pipsqueaks in smoky rocks (You're already gone) There's always time to fall on their face what-Only someones will erase- yeah

You might think that you can hunt me down

Steal my jewels uh-Wear my frown

But in the end yo-Find the funk Smoked out placed down in my trunk

If you'd all move to my plan Things will work out fine-Turn out grand

If everything works to my design We all gonna be down and it's still all mine

I-Can't take you anymore Can't take the way you treated me You make me crawl You're already gone

Feels so far away Left me all alone Even though you're next to me You're already gone

Feels so far away Left me on my own Even though you're next to me

You're already-You're already-You're already gone

You're already-You're already-You're already gone

You're already gone
