

# The Avett Brothers, Signs

It's the place and your friends that got me down  
Tellin' me I should not hang around  
There's a sign in the window  
Tellin' me I've got to go

I see the signs everyday  
In your face and in your way that you act  
It's not that it hurts my pride  
Now I see the other side of you  
The side that won't let down  
The side that won't let go

I didn't mean for me to see  
Things I see in you and me  
But know I know that we can't live together  
The way I want to live free forever
