

The Awkward Romance, Drama For Dummies

unbroken promises are cliché,
i'm sure clichés will be cliché one day.
so can you see why i spaz?
given my history
if something's wrong it's wrong with me.
besides i know you're perfect. now you're gone. i can't blame you. (i can't go alone)
if you were me it wouldn't have taken so long.
starting to think now that you're gone.
if you were me it wouldn't have taken so long. i'm the star of this tragedy.
i love the stage time, and i can't get past the irony.
when the curtains draw i'll fear sarcastic applause,
but no one is there to see that this party's over. i'm confused, and i'm taking it out on you. you're gone
and i can't reach you .. can barely reach you.. barely reach you
