

# The B-52s, Keep This Party Going

Fast forward  
Where's my remote  
Wild-eyed in a crazed haze  
Fast forward  
Rock this boat  
Party goin for days and days

Follow the bliss but remember this  
It's all about the kiss  
As I gaze at the skies and look into your eyes  
I just can't resist

Crank it

Attain enlightenment  
Gotta move it to the front  
We've gotta be part of the universe  
Take this party to the white house lawn  
Things are down and dirty in Washington

Go to church on Sunday  
Party on Monday  
And every other day of the week  
We're just a bunch of party geeks  
(Let's keep this party goin' on)

Drag it slam it  
(Let's keep this party going' on)  
Wear me out  
Elevator rising fast  
Crank it spank it  
(Let's keep this party going' on)  
Wear me out  
(Let's keep this party goin' on and on and on and on)  
Let it out ready to blast

Fast forward  
Grab the remote  
Love the way you move that stuff  
Fast forward  
Slam that note  
Either way slow or rough

If you feel uptight and you make it alright  
It's part of this earthly delight  
I can hear the sound from the underground  
So let's get wild tonight

Crank it
