

# The Baboon Show, Have A Party With Me

Here is the whiskey  
Here is the beer  
And here's my moonshine  
It's fine this year  
And here's the wine that I made out of cherries  
So now I'm gonna be more cockeyed than Chuck Berry  
Bottoms up down the hatch  
Let's get stoned and sing it to the ladies

Have a party with me everybody get drunk tonight  
And If you drink with me  
You have to do it down the line

My old liver is gone and dead  
I use a bag of sand instead  
It cleans my body  
It cleans my brain  
Cause there is only booze left in my veins  
Now it drains then one more  
And here's the lady you've been waiting for

Have a party with me everybody get drunk tonight  
And If you drink with me  
You have to do it down the line

Come have a party with me there is whiskey there is beer and shots  
And if you drink with me  
You have to do it down the line
