

# The Bates, Gonna Make It Through The Night

I have made it through the canyons  
through so many years  
I have made it through the mountains  
and I have waisted so much tears  
I havemade it through the darkness  
through so many nights  
I have made it through the crossfire  
and the future still looks bright  
everything's allright  
I have made it through the countries  
so many, many nights  
I have made it through the citys  
and the future still looks bright  
I'm gonna make it through the night
