

The Bates, She Won't Come Back

and the city is dark and full of tears
and the time it had overcome the years
and the boys and the girls
they are still doing their cheers
you pretend that you're doing fine on the line
at this dirty place
no one knows that you're all alone
she is gone and she won't come back
and the morning is coming
much too quick
and the sun makes you feeling very sick
and the girl by your side
she can't give you that sweet kick
you are tired and you can't go on
walking home from this dirty place
no one knows that you're all alone
she's gone and she won't come back
