

The Be Good Tanyas, Don't You Fall

Don't you fall in love with me
Don't show me your affection
I can't give you what you want from me
I don't want the attention

I gave away my heart before
And it only caused me sorrow
How could I think of loving someone
Today or tomorrow

Don't you fall...

I've been so long confused
Was I loved or was I used

Now the sun goes up and down
And the weather rains and shines
I lost my heart somewhere
Oh I need to take more time

Don't you fall in love with me
Don't show me your affection
I can't give you what you want from me
I don't want the attention
