The Be Good Tanyas, Hello Love

Hello love my old friend Sure is good to see you again I stood out, on the road Just a watchin the cars A come and go I felt empty, I felt bare I really thought that I could not care All the leaves are soaking wet How succulent a little spring day gets If you kiss me once Out here in the rain Well go back and start all over again So lift up every voice and sing Sing to the tree tops And everything Say hello love My old friend Sure is nice To see you again
