

# The Beach Boys, Hey Little Tomboy

(Brian Wilson)

Hey, little tomboy, sit here on my lap  
I got things that I gotta tell you  
No more skateboards, put away your baseball mitt.  
Your rough livin' days are through  
You could find places to go  
You could see that boys love you so  
They're doin' it all over the world  
Hey little hey little hey little tomboy  
Time to turn into a girl  
Hey little hey little hey little tomboy  
They're doin' it all over the world  
Hey, little tomboy, I've had my eyes on you  
Thinkin' what a girl you could be  
Mmm, I smell perfume, let's try some cut-off jeans  
Look at all the changes I see  
I'm gonna teach you to kiss  
You're gonna feel just like this  
They're doin' it all over the world  
Hey little hey little hey little tomboy  
Time to turn into a girl  
Hey little hey little hey little tomboy  
They're doin' it all over the world  
(Hey little hey little hey little tomboy)  
I'm gonna make you a girl  
(Hey little hey little hey little tomboy)  
You'd make a beautiful girl  
(Hey little hey little hey little tomboy)  
They're doing it all over the world
