

The Beach Boys, In My Car

When I'm behind the wheel
Horses of gas and steel
The highway is my home
In fiberglass and chrome
Fantasy car shiny Corvette
Let's take a ride you can't forget
Come on pretty lady ride with me
In my car
I'm captain of my destiny
In my car
Pretty babe come cruise with me
Come for a drive
And we'll arrive
Feelin' alive
I'm master of my fate
When I accelerate
My new Vette is my throne
When on the road we roam we roam we roam roam
Cruisin' like we're in a dream
Feelin' like we're still sixteen
Being a part of the great American scene
In my car
I'm captain of my destiny
In my car
Pretty babe come cruise with me
Come for a drive
And we'll arrive
Feelin' alive
Cruise cruise cruise with me baby
Now move move up in the stratosphere
Zoom zoom zoom with me darlin' now
We're still cruisin' after all these
Cruisin' after all these years
Wind blowing in my hair
I feel like a millionaire
Radio is blasting strong
We're breaking out in song
Blazing trails both near and far
Park my car behind a star
Life is full of possibilities
In my car
I'm captain of my destiny
In my car
Oh pretty babe come cruise with me
Come for a drive
And we'll arrive
Feelin' alive
In my car
I'm captain of my destiny
In my car
Oh pretty babe come cruise with me
