

The Bear Quartet, Straw

as we breathe in pace
I tried so hard
I understand
goodbye

lying on my back
in pale green grass
sun is warm on face
lovelike as green glass bottles
lovelike in pale green grass
stay down
can you hear me,
I said stay down

as we breathe in pace
I tried so hard I understand
goodbye

it's a beautiful mood
to be lead into
I won't speak to hurt
I take your lies
it goes with your angry lips,
maudlin eyes
better get going
storm is on its way

as we breathe in pace
I tried so hard
I understand
goodbye
as we breathe in pace
I tried so hard
I understand
goodbye

lose your ride
and lose it all
stick by stick
and straw by straw
