

# The Beatnuts, Reign of the Tec

(JuJu)

It's the hard little pistol-packing punk dope smuggler  
Lethal when I kill, I go straight for the jugular  
Back again to hit ya with the junkyard funk  
Shit gets out of hand, I got a Tec in the trunk  
Let's flip the ill shit kid, yo he looped it  
Hardcore, straight to make you brothers act stupid  
Now I'm on a rampage, prepare for the slaughter  
Lyrical monster busting nuts in your daughter  
Slaying competition is the real beat digger  
(Clank) Hit you with a shovel now you're dead, nigga  
Freaking the funk, I be the ill funk freaker  
With the diabolical sound coming through your speaker  
Bulletproof ready for action, no fronting  
Fully loaded Tec loaded ready to go hunting  
So sleep and watch me let off and catch wreck  
"John Wayne couldn't even stand the reign of the tec"
