

The Bella Cullen Project, Out of the blue

What do you do when life gets burning?
Tick tock, clock, the wheels are turning
Out of the blue
Stamp your feet, defiance is looming
Don't give up, your rose bud's blooming
Out of the blue
Out of the blue comes a face
where your faith is placed
Out of the blue
you don't fit in
while your smile is running thin
What do you do when life gets rough?
Hitchhike home with all your stuff
Out of the blue
Nothing's right and something's wrong
but you keep on holding strong
Out of the blue
Out of the blue comes a face
with the utmost grace
Out of the blue
you are scared
and the monster's teeth are bared
Out of the blue
