## The Bella Cullen Project, Out of the blue

What do you do when life gets burning? Tick tock, clock, the wheels are turning Out of the blue Stamp your feet, defiance is looming Don't give up, your rose bud's blooming Out of the blue Out of the blue comes a face where your faith is placed Out of the blue you don't fit in while your smile is running thin What do you do when life gets rough? Hitchhike home with all your stuff Out of the blue Nothing's right and something's wrong but you keep on holding strong Out of the blue Out of the blue comes a face with the utmost grace Out of the blue you are scared and the monster's teeth are bared Out of the blue
