

# The Bella Cullen Project, Victoria's Lament

The ballet studio

The others did it

I saw the video

How could they do this?

[chorus]

It began when we came on their land

We found out she was human

Gotta find myself a new man.

So I came back

Hes gone, shes not

Mate for mate she will be taught

How to finish someone off!

I was planning for the kill

Uncovered were my tracks

The werewolves somehow tracked me down

But sense was what they lacked

[Chorus]
