

The Benjamin Gate, Do What You Say

You come to me with your look of superiority
Have you asked yourself today
How real is what you believe?
In one moment He will make me complete
Do I talk about it
To be apart of the elite

Oh. Do what you say
Oh. Do what you do

You try draw the words out of my mouth
Show me what to do
But then I'll die if I live thru you
We're here to love and not to be manipulated
To each his own
And that should never be understated

Let's see what we've got here
Let's take it on
