The Benjamin Gate, The Healing

I feel your healing touch it might not feel like much but you're getting closer now much closer than I ever thought you'd be than I ever knew you to be dear Jesus oh heal me, heal me, heal me

don't want to leave this place see it streaming down my face all this pain is lost in the love I've gained

I feel my passion grow it started out so slow but you're getting closer now much closer than I ever thought you'd be than I ever knew you to be dear Jesus oh heal me, heal me, heal me

don't want to leave this place see it streaming down my face all this pain is lost in the love I've gained

crystal pool, blood so cruel shelter of love, - cloud fire mystery

don't want to leave this place see it streaming down my face all this pain is lost in the love I've gained
