

The Beta Band, Brokenupadingdong

Running down the road in the middle of the light
Light don't mean its going to be alright
Running down the road in the middle of the light
Say to myself you're gonna be here all night

Tried to find myself and grow
that way you know you see
I'll never see you go slow
Tried to find myself and grow
That way you see I'll never go slow

See yourself on a thousand time
I try to make myself I'm never going to cry
You know the way and the day I fall
I never know the pack of love I felt so hiding

This way not that way
How did you know that the river don't flow
Tried to walk around my house (my self)
