

The Big Deal, Never Say Never

How many days
And how many nights
You're gonna hesitate?
How many chances
will you try to escape?

Take me, take me,
you'll wish it didn't end
Have me and let it go to circumstance

Never say Never
Let me show you my real face
Never say Never
Would you take a ride to
see my secret place?

You can play so nice
Or play so bad
Just Let us go ahead
You're as cold as steel
And I burn like hell on heels

Take me, take me, you'll wish it didn't end
Have me, let it go to circumstance
