

the bird and the bee, Birds And The Bees

Where oh, where does the water come from
The mountain, come from the sea
Search between the angles
Rocks in the rivers
Bring them to me

Where oh, where does the fire
Keep all the fever
More than I need
Sadness turns up to gladness
When everything's burning
You know what I mean

Get into the car
To make the light
To go fast
To go slow
To make the light
Don't take shh...
Crucify it
To breath in
To breath out
To kick a habit
Give it all you've got
To do it right
To get it wrong
To get caught
To start another day like yesterday (yesterday)
To start another day like yesterday (yesterday)

Why oh, why do the birds
Do all the flying
It could be me
Taking everything south
The weather is warmer
Good place to be

Why oh, why do the bees
Need a beekeeper
Let them alone
Taking
All of their honey
Isn't it greedy
Leaving them dry

Get into the car
To make the light
To go fast
To go slow
To make the light
Don't take shh...
Crucify it
To breath in
To breath out
To kick a habit
Give it all you've got
To do it right
To get it wrong
To get caught
To start another day like yesterday (yesterday)
To start another day like yesterday (yesterday)

Where oh, where oh
Why oh, why oh

Why oh why, why oh why
Why oh why, why oh why
Where oh, where oh
Why oh, why oh
Why oh why, why oh why
Why oh why, why oh why
Where oh, where oh
Why oh, why oh
Why oh why, why oh why
Why oh why, why oh why

Get into the car
To make the light
To go fast
To go slow
To make the light
Don't take shh...
Crucify it
To breath in
To breath out
To kick a habit
Give it all you've got
To do it right
To get it wrong
To get caught
To start another day like yesterday (yesterday)
To start another day like yesterday (yesterday)
