

the bird and the bee, So You Say

If I ask you to follow me around
Button up your mouth
I want to be clear with you

If I ask you to
Drive me here to there
You'll do everything but what I need from you

You say you will not love me
You say you cannot bother me
So you say you'll never love me
So you say, so you say
So you say, so you say

You say you will not love me
You say you cannot bother me
So you say you'll never love me
So you say, so you say
So you say, so you say

If I ask you jump
How high is what you'll say
A dancing bear for me
But I wanted more from you

If I hit you hard
Like elementary school
Not sure of what you'll do
I want to be with you

You say you will not love me
You say you cannot bother me
So you say you'll never love me
So you say, so you say
So you say, so you say

You say you will not love me
You say you cannot bother me
So you say you'll never love me
So you say, so you say
So you say, so you say

I can scream real loud
"I am da Vinci"
Tear down a building
"I am the debris"
Climb up a mountain
"I am the sky"
Make you feel good
"I am the surprise"
Can I change you?
"I am the place"
Will you love me?

But you say...
But you say...

So you say, so you say
So you say, so you say

You say you will not love me
You say you cannot bother me
So you say you'll never love me
So you say, so you say

So you say, so you say

You say you will not love me
You say you cannot bother me
So you say you'll never love me
So you say, so you say
So you say, so you say
