

the bird and the bee, Spark

I heard a spark
Something that glowed
Hundred feet higher
I open my eyes
When there is light
To see if I'm closer

What if I stopped
Just for a while
To make it go slower
Still up the night
Just for a while
To see if I'm finer
Live like I'm finer

Tell me a tale
Something with fire
To break from the sorrow
To break through the doors
Piles of earth
To see where the sun goes

What if I stopped
Just for a while
To see if I'm closer
Still up the night
Just for a while
To see where the sun goes
Oh, oh, oh

I heard a spark
Something that glowed
Hundred feet higher
I open my eyes
When there is light
To see if I'm closer

What if I stopped
Just for a while
To see where the sun goes
Still up the night
Just for a while
To see if I'm finer
Live like I'm finer
