

The Black Angels, Vikings

Gunna do things my way

Gunna see you tomorrow,

On a German war plane

We gunna bomb you til Tuesday*

Important vision

Incredible smile

I and out

On a Viking warship

We want you on our island,

If we can ever find it

Important wisdom

Unfortunate lie, again

In and out

We're gunna run through the desert

We got big boots to fill

We're gone just to seek cheap thrills

Imported wisdom

Incredible cry

Unfortunate lie

* following the first Monday of November
