

# The Black Crowes, Kickin' My Heart Around

Just come out and say it  
Spit the words out of your mouth  
It needs no explaining  
cuz we both felt it go south

Just stop kickin my heart around  
For the last time  
Stop kickin my heart around

Well I told you so  
Not its time to go  
Got to get this show on the road  
Just stop kickin my heart around

In the beginning  
There was no wrong you could do  
Now in this ending  
I cant stand looking at you
