

The Black Crowes, Kickin' My Heart Around

Just come out and say it
Spit the words out of your mouth
It needs no explaining
cuz we both felt it go south

Just stop kickin my heart around
For the last time
Stop kickin my heart around

Well I told you so
Not its time to go
Got to get this show on the road
Just stop kickin my heart around

In the beginning
There was no wrong you could do
Now in this ending
I cant stand looking at you
