The Black Eyed Peas, Head Bobs

I'm hard to handle like bikes with no bars We excite stores that got dykes leaving doors Unlock the heated 'cause they know we're not well Left them breathless now they're waiting to exhale Waiting to exhale with some competition

So come in and text well

The next one gets hung and chip of a chisel

I'm making chicks' nipples sizzle

There's no question to the way I rip the riddle

I'm awesome, I bring on monsoon when I bloom and blossom

And run over niggas like opossums

Froze on the road with my bike on they cornea

Man I'm warning you, look, the black eyed peas is formin up

Ring around your throat that's made up of razor blades

Put the slice and let nice and easy humble days

On out, over, well known casanova

Can I put on an army, quick to take it over

9 on my niggas, count all my figures

Money on the street went entertainment

Nowadays brothers are getting paid doing nothing

Reciting the same line with the lame rhymes

Frontin rappers actin like their pops' was orville redenbacher

They quick to go pop

But when it's time to fiend for the green they flop

We do it from the heart like blood

Create rhymes that flood, and blow up like the scud, miss-ile!

Miss out
