

# The Black Eyed Peas, Positivity

You gotta keep it on the positive

Na, na, na...

Nowadays it's hard to make a livin but easy to make it 'cause  
People walk around one just one itchy feelin  
I feel nauseated from your evil drug dealin, bless feelin  
The definition of top billin'  
It's ill the my vocabulary  
Diggin your life style scary  
No wonder why you carry a 2, to retaliate  
Tryin to annihilate  
The one a two annihilate you  
They got some dude just to get you bugged  
Really y'all, this shit is all out of whack  
You can go out at night yet you won't come back  
And this verse that I'm kickin some might take it personal  
And come out and get me, but worst of all  
These rap fans are taking these shit serious  
It ain't new york versus l.a.  
'cause really it's hip-hop, not a big ol' problem  
Now let's see what we could do to solve them solve them...

Na, na, na...

We gotta keep it on the positive positive...

Na, na, na...

We must keep it on the positive positive...

Lucifer's got your little mind twisted  
'cause God once gave you the meaning of life and you missed it  
You've been listed in the devil's books  
Livin the life of crooks and hoes and in such and such  
All that shit, that don't mean much  
You got one hand on your gat while your genitals are being touched  
Livin the life that's plushed and glamourous  
Drunk and high with your little soul's crushed  
Don't you know that life is a mirage  
I keep myself sober so my soul is camouflaged  
If the devil cannot see me tell me how can he attack me  
If he can't grasp a hold tell me how can he try to snatch me  
I ain't talking about the white man, the black man or a jew man  
'cause the devil can exist in every human  
Look how biggie went out, and tupac went out  
And martin, and malcolm, and kennedy, and ? squeek?  
And adam, and rene, and so on, and so on...

Na, na, na...

We gotta keep it on the positive positive...

Na, na, na...

We gotta keep it on the positive positive...

Even though we got problems  
We gotta find some way to solve 'em  
I hope you come and follow me now  
Keep it on the positive  
Even though we got problems  
I hope you find some way to solve 'em solve 'em...  
Keep it on the positive

P O S I T I V I T Y (x2)

We're currently located over the los angeles scene  
While you see a lot of niggas perpetrating like they're kings  
With this so-called God complex

But when I see they mind they only see checks  
So let's get our heads together  
Let's form a foul weather  
Proclaim against perpetrators

Well said, alligator  
Our realm, no perpetrator  
A society choose the elevator  
Of success by identity cross-fader  
Complex thinking they're really much greater  
Plain raw, harness all, maybe rough radar  
Tough enough to perpetrate, I talk to you later

But wait, what about that midget brains  
Unable to see reality too unreal  
I'm sealed with mind, body and soul  
Connected together, we tougher than leather  
We much more than you think we are  
We are the product of our on environment repent  
With equality, plus duality  
And taken all kind of possibilities ...bilities  
I sing the song from the soul  
Let it rise from the tone  
Let it rhythmically grow  
Into it's own life  
Let it become you  
Then you become it  
Once you become it everything will be infinite  
Will be infinite, will be infinite, will be infinite...

We much more than you think we are  
We are the product of our on environment repent  
With equality, plus duality  
And taken all kind of possibility  
I sing the song from the soul  
Let it rise from the tone  
Let it rhythmically grow  
Into it's own life  
Let it become you  
Then you become it  
Once you become it everything will be infinite  
Will be infinite, will be infinite, will be infinite...
