

# The Black Halos, Retro World

This ain't nothing really new  
I said everything's been tried and true  
Everything's been said and done 1000 times before

Nothing really goes out of style  
I said it only goes away for a little while  
Only to come charging right on through your door

So hey! Whatcha gonna do  
Hey! To keep yourself amused  
Hey! What can you do when everything's been used

(Chorus:)  
Round and round and around it goes  
Where it stops, no one knows  
Nothing really changes it's a Retro World  
Here it comes, baby, there it goes  
It's getting harder to shoot my load  
Nothing's really dangerous just a Retro World  
Go!

No future dreams for you and me  
A never-ending life of repeats  
Forced to live out past mistakes again and again

This ain't nothing really new  
I said everything's just tried and true  
Sure the name may change but the product's still the same

So hey! Whatcha gonna do  
Hey! To keep yourself abused  
Hey! What can you do when everything's been used

(Rep't Chorus)
