

# The Blackout Pact, Hey Babes I'm A Zombie, Give Me Brains

Tear away open up and get the full design  
Tear away from us

Can you separate all that's wrong  
Walk me in your shoes and show me how  
Within boundaries they'll hold you down  
Give strength to all your weakness to fall behind the others

Away from us  
Now we're crawling up  
Away from us  
Now we're kissing the ground

Move us through the dark  
Now we're crawling up  
Move us through the dark  
Now we're kissing the ground

Can we play off all that's wrong  
A hum in my head is not enough  
Within boundaries they'll hold you down  
Give strength to all your weakness to fall behind the others

Away from us  
Now we're crawling up  
Away from us  
Now we're kissing the ground

Move us through the dark  
Now we're crawling up  
Move us through the dark  
Now we're kissing the ground
