

The Blackout, Spread Legs Not Lies

I now see your disguise
I'm hiding from you
and all your lies
are coming true
the tales have now begun
I'm lying to you
and your serpents tongue
is coming through
Close your eyes and swallow
time is on your side
I will make you feel so hollow
time is on your side
so lay down for me
time is on your side
and feel so hollow
I now see your disguise
I'm hiding from you
and all your lies
are coming true
the tales have now begun
I'm lying to you
and your serpents tongue
is killing you
Everybody knows that you're a liar
it is time to fight with fire
get down.
I'm telling the truth
time is on your side
time is on your side
time is on your side
time is on your side
time is on your side
time is on your side
time is on your side
time is on your side
