

# The Blackout!, Spread Legs Not Lies

I now see your disguise  
I'm hiding from you  
and all your lies  
are coming true  
the tales have now begun  
I'm lying to you  
and your serpents tongue  
is coming through  
Close your eyes and swallow  
time is on your side  
I will make you feel so hollow  
time is on your side  
so lay down for me  
time is on your side  
and feel so hollow  
I now see your disguise  
I'm hiding from you  
and all your lies  
are coming true  
the tales have now begun  
I'm lying to you  
and your serpents tongue  
is killing you  
Everybody knows that you're a liar  
it is time to fight with fire  
get down.  
I'm telling the truth  
time is on your side  
time is on your side  
time is on your side  
time is on your side  
time is on your side  
time is on your side  
time is on your side  
time is on your side
