

# The Bluetones, Slight Return

Where did you go  
when things went wrong for you,  
when the knives came out for you?  
Where did you go?  
All you needed was a friend.  
You just have to ask and then.....

you don't have to have the solution,  
you've got to invest in the problem,  
and don't go hoping for a miracle.  
All this will fade away  
so i'm coming home.

What did you learn,  
locked away all on your own,  
chance and your head all blown  
What did you learn,  
It was unfortunate,  
you missed you chance to find out that

you don't have to have the solution,  
you've got to invest in the problem,  
and don't go hoping for a miracle.  
All this will fade away  
so i'm coming home.
