

# The Bouncing Souls, We're Coming Back

We're Coming Back  
We're Coming Back  
We're Coming Back to you  
We are never going to go away again.

Hold on a little longer  
Try a little harder  
Till we all belong together till the end  
So remember out there somewhere you've got a friend  
and you'll never walk alone again.

Don't be worried, don't be scared  
We're fighting to get there  
Never die, we're gonna get through  
We're gonna run, we're gonna crawl  
Kick down every wall  
Never die we're coming back to you

So remember out there somewhere you've got a friend  
and you'll never walk alone again.

We're Coming Back  
We're Coming Back  
We're Coming Back to you  
We are never going to go away again.

Hold on a little longer  
Try a little harder  
Till we all belong together till the end  
So remember out there somewhere you've got a friend  
and you'll never walk alone again.
